### 1. Nature of Operations, Basis of Presentation, and Going Concern

Calibre Mining Corp. (the "Company") (*an Exploration Stage Company*) is incorporated under the laws of British Columbia, Canada and maintains its corporate head office in Vancouver, Canada. The Company's common shares are listed on the TSX Venture Exchange (TSX.V: CXB) in Canada.

The Company engages principally in the acquisition, advancement and development of global precious and base metals assets and mineral properties. The recovery of the Company's investment in resource properties and the attainment of profitable operations is dependent upon the discovery and development of economic precious and base metal reserves and the ability to arrange sufficient financing to bring these reserves into production. The ultimate outcome of these matters cannot presently be determined.

The accompanying unaudited interim consolidated financial statements should be read in conjunction with the notes to the Company's audited consolidated financial statements for the year ended December 31, 2009, since they do not contain all disclosures required by Canadian generally accepted accounting principles ("GAAP") for annual financial statements. These unaudited interim consolidated financial statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the respective interim periods presented.

The preparation of these financial statements is based on accounting policies and practices consistent with those used in the preparation of the audited annual consolidated financial statements for the year ended December 31, 2009.

These unaudited interim consolidated financial statements have been prepared by the Company in accordance with Canadian GAAP and on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Several adverse conditions cast significant doubt upon the validity of this assumption.

The Company has a history of losses and no operating revenue, other than interest income. The ability of the Company to carry out its planned business objectives is dependent on the ability to raise adequate financing from lenders, shareholders, and other investors, by generating operating profitability and positive cash flow, and/or by optioning its mineral properties for cash and/or expenditure commitments. There can be no assurances that the Company will continue to obtain additional financial resources necessary and/or capability to achieve profitability or positive cash flows. If the Company is unable to obtain adequate additional financing, the Company will be required to curtail operations, exploration and development activities.

If the going concern assumption were not appropriate for these financial statements then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the balance sheet classification used. These financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. Such adjustments may be material.

### 2. Future Accounting Policies

In February 2008, the Canadian Accounting Standards Board confirmed that International Financial Reporting Standards ("IFRS") will replace current Canadian GAAP for publicly-accountable, profit-oriented enterprises effective January 1, 2011. The transition date of January 1, 2011 will require the restatement, for comparative purposes, of amounts reported for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2010, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

### 3. Mineral Property Costs

#### a) *Borosi, Nicaragua, Central America*

On July 21, 2009, the Company completed the acquisition of a 100% equity interest in Yamana (Nicaragua) Ltd. ("Yamana Nicaragua") from Yamana Gold Inc. (TSX: YRI). Yamana Nicaragua's wholly owned subsidiary owns an undivided 100% interest in the Borosi Gold – Copper Project (the "Borosi Project"), consisting of a number of contiguous mining and exploration concessions located in the North Atlantic Autonomous Region of Nicaragua, Central America.

In consideration, the Company issued 12 million common shares and paid \$4.42 million in cash. In addition, if within five years from closing, and upon the Company incurring cumulative exploration expenditures aggregating at least \$5 million, and upon completion and acceptance of a National Instrument ("NI") 43-101 Measured and Indicated resource within the existing Borosi Project boundary, the Company will pay a bonus of \$5.00 per gold equivalent ounce, to a maximum total payment of \$3.5 million (700,000 gold equivalent ounces) ("Bonus Payment"). This Bonus Payment will be payable in cash or common shares, at the sole option of the Company. The Company also issued 5 million warrants exercisable at \$0.50 per share, and 5 million warrants exercisable at \$1.00 per share (collectively the "Bonus Warrants"). The Bonus Warrants expire on July 21, 2014 and are only exercisable if the Company delineates at least 2.5 million NI 43-101 compliant ounces of gold equivalent in Measured and Indicated resource categories. The existence of an NI 43-101 compliant Measured and Indicated resource is not determinable at this time, and management is not able to determine with any accuracy if such a resource will be identified in the exploration of the project, as a result no liability has been accrued for the Bonus Payment and no value has been assigned to the Bonus Warrants at the purchase date.

On July 21, 2009, the Company and B2Gold Corp. ("B2Gold") (TSX:BTO), executed an option agreement whereby B2Gold is entitled to acquire a 51% interest in the Borosi Project by expending \$8 million on exploration and other work by July 1, 2012; of which C\$2.5 million must be expended by July 1, 2010. B2Gold has the option to acquire an additional 14% interest in a Designated Project Area ("Project Area") as defined and agreed upon by both parties, within the Borosi Project Boundary, for a total 65% Project Area interest by completing a preliminary feasibility study on that Designated Project. The Company will be the operator of the work program in the first year of the agreement, with B2Gold having an option to assume operatorship afterwards. Upon B2Gold earning an interest in the project, the Company and B2Gold will be responsible for the pro rata share of expenditures and the Bonus Payment, if any, going forward.

### 3. Mineral Property Costs – continued

#### a) Borosi, Nicaragua, Central America – continued

As at March 31, 2010, the Company had an outstanding receivable totalling \$262,870 (December 31, 2009 - \$347,000) from B2Gold for the reimbursement of eligible expenditures based on the project option agreement described above. The amount was received subsequent to the period end.

#### b) Point Leamington, Newfoundland, Canada

The Company continues to own and keep in good standing a 100% interest in the Point Leamington mining lease in Newfoundland, Canada, originally acquired in 2004. The mining lease is subject to a 2% net smelter return royalty, which is held by a third party.

During the three months ended March 31, 2009, the Company dropped certain claims in the Point Leamington area, unrelated to the above mining lease, which resulted in the Company writing off acquisition and exploration costs totalling \$149,499 associated with these dropped claims.

#### c) Trundle, New South Wales, Australia

In 2008, the Company entered into an option agreement whereby the Company could earn up to a 70% interest in the Trundle Property (“Trundle”), located in New South Wales, Australia, by completing certain expenditures on the property. The Company had a further option to acquire an additional 20% (for a total interest in Trundle of 90%) by funding and completing a feasibility study on the property.

During the three months ended March 31, 2009, the Company recognized an impairment with regards to Trundle resulting in a write off \$927,875 during the period.

In August 2009, the Company completed the sale of its option interest in Trundle to Clancy Exploration Limited (“Clancy”), a publicly traded company in Australia (ASX: CLY). As consideration, the Company received 1,750,000 common shares of Clancy, approximately 2.7% of their issued and outstanding common shares. The fair value of the Clancy shares at March 31, 2010 was \$229,614 (December 31, 2009 - \$246,015).

### 5. Share Capital

#### a) Stock options

A summary of the status of the Company's stock options as at March 31, 2010 and changes during the three months then ended is presented below:

	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of year	9,420,000	\$ 0.28
Granted	300,000	0.20
Expired	(400,000)	0.60
Outstanding, end of year	9,320,000	\$ 0.26
Exercisable, end of year	6,082,500	\$ 0.32

During the three months ended March 31, 2010, the Company granted a total of 300,000 stock options to an employee and a consultant. The options granted are exercisable at \$0.20 per share; 100,000 expire on February 1, 2015 and 200,000 expire on March 31, 2012. During the same period, 400,000 options expired unexercised.

The weighted-average fair value of options granted during the three months ended March 31, 2010 was \$0.16.

As at March 31, 2010, stock options exercisable and outstanding are as follows:

Exercise Price	Options Outstanding		Options Exercisable	
	Number	Weighted Average Remaining Contractual Life (yrs.)	Number	Weighted Average Remaining Contractual Life (yrs.)
\$0.15	5,750,000	3.94	2,737,500	4.37

	9,320,000	3.39	6,082,500	2.81

#### b) Stock-based compensation

The Company amortizes the total fair value of options granted over the option vesting schedule. Consequently, the total compensation expense recognized for options granted during the three months ended March 31, 2010 or prior periods was \$116,411 (2009 - \$2,874). Of the total compensation recorded, \$104,087 (2009 - \$2,874) was charged to operations expense and \$12,324 (2009 - \$Nil) was capitalized to mineral property costs.

### 5. Share Capital – continued

#### b) Stock-based compensation – continued

The fair value of the options granted during the three months ended March 31, 2010 has been estimated at the date of grant using the following Black-Scholes option pricing assumptions:

Weighted average risk-free interest rate	<b>2.09 %</b>
Weighted average expected option life	<b>3 years</b>
Weighted average expected stock volatility	<b>167%</b>
Weighted average expected dividend yield	<b>Nil</b>

Option pricing models require the input of highly subjective assumptions including the expected stock price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore, the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options.

#### c) Warrants

A summary of the status of the Company's outstanding warrants as at March 31, 2010 and changes during the three months then ended:

	<b>Warrants</b>	<b>Weighted Average Exercise Price</b>
Outstanding, beginning of year	<b>68,373,179</b>	<b>\$ 0.27</b>
Exercised	<b>(448,336)</b>	<b>0.11</b>
Outstanding, ending of year	<b>67,924,843</b>	<b>\$ 0.27</b>

During the three months ended March 31, 2010, holders exercised 448,336 warrants for gross proceeds of \$47,167. In connection with these exercises, the Company reclassified the fair value of these warrants previously recorded in the amount of \$5,801 from contributed surplus to share capital. As at March 31, 2010, warrants exercisable and outstanding are as follows:

Exercise Price	Warrants Outstanding		Warrants Exercisable	
	Number	Weighted Average Remaining Contractual Life (yrs.)	Number	Weighted Average Remaining Contractual Life (yrs.)
